ABOUT SIRENA 48 COUPE

The Sirena 48 Coupe is the latest addition to the Sirena Yachts range, with a striking low profile that retains the line's timeless look including a plumb bow and large windows. The 48 Coupe stays true to the concept that governs the entire Sirena line, and indeed shares the hull design and interior layout with the Sirena 48 introduced in 2023. To that end, she will bring the same mixture of cruising efficiency, onboard comfort, and performance that has helped set all Sirena Yachts apart from the other yachts in their respective classes. It starts with a hull that offers proportionally large volume for its length, and within that useful space comes a high level of interior fit and finish.

Sirena takes great pride in using high-quality materials and a combination of natural and manmade light to create calming environments on board, and the 48 Coupe is no exception, key parts of its strategy of using design and craftsmanship. With the helm as a focal point of the main deck, the yacht invites quality time in common spaces among owners, family, and guests, and exterior areas fore and aft allow for larger gatherings. A variety of optional stern area configurations let owners personalize the yacht to their needs. The efficiency of the hull works in concert with a variety of propulsion packages, including a hybrid system, to provide a variety of cruising options, including long range at low speeds for extended travel, while also optimizing day trips with exhilarating higher speeds.

Everything a cruising family needs is easily found in the Sirena 48 Coupe: unmatched interior volume, comfort features tastefully decorated, and plenty of deck space for lounging, all in a hull that provides ocean-class performance.

DIMENSIONS AND MAIN CHARACTERISTICS

Length Overall LOA	16,04 m / 52'71/2"
Hull Length	13,79 m
Hull Beam BHmax ISO 8666	5 m / 16'5"
Max Draft - TMAX ISO 8666	1,06 m / 3'6"
Cabins	3 standard + 1 (optional crew cabin)
Loaded-Displacement Mass	26,21 tonnes / 58224 lbs (with Cummins QSB 6.7) 27,80 tonnes / 61289 lbs (2 x Cummins QSM 11 670 HP)
Diesel Tank Capacity	1900 lt / 502 gal
Hull Type	Semi Displacement
Exterior Styling Concept & Interior Design	Sirena Marine
Naval Architecture	German Frers
Engines	Cummins QSB 6.7 550 HP x 2 Cummins QSM 11 670 HP x 2 - optional
Cruising speed	16 knots
Economy Cruising Speed	10 knots
Max speed*	24,4 knots 27,5 knots (with optional engines)
Certification	CE Category B

*NOTE: All performance specified in the table above are design data and applies to a standard configuration boat (standard equipment installed as per this standard list) with clean keel, propellers, and rudders. Furthermore, the performance levels indicated above have been defined under good sea and wind conditions (Beaufort Scale level 1, Douglas Scale level 1, ambient T < 25°, seawater T ≈15°, atmospheric P = 103250 Pa) with 2 people on board, 25% fuel, and fresh, grey and black water tanks empty. Different or harsher sea conditions and additional selected optional equipment may affect the performance.
